

In honor of Children's Health Month

The National Coalition For Responsible Technology invites you to a rally...

Please join us in front of the United States Supreme Court as we speak out about:

- The Health and Safety Concerns of 5G Technology
- Small Cell Antennas In Front Of Homes on Rights of Way
- Cell Towers on School Property
- Wireless Technology in Schools
- Global Wi-Fi Beamed From Space
- Outdated and Inadequate FCC Limits for Cell Towers, Cell Phones and Wireless Devices
- The Lack of Protective Limits for Children And Pregnant Woman

We call on our federal government to take immediate action to inform the public about cell phone and wireless radiation risks and to protect the public with public policy that includes a moratorium on 5G antenna deployment until long term safety can be assured.

Speakers include

Desiree Jaworski, Executive Director, Center for Safer Wireless

Kate Kheel, founder of WhatIs5G.info and President of Maryland Smart Meter Awareness

Ellen Marks, Director of the California Brain Tumor Association

Camilla Rees, MBA, Electromagnetic Health.org, Manhattan Neighbors for Safer Telecommunications

Theodora Scarato, MSW, Executive Director of Environmental Health Trust

James S. Turner, Esq, President of the National Institute for Science, Law and Public Policy

Jennifer Wood, architect and science researcher

and many more.

We are calling for immediate action to protect our children's healthy future.
